

OSHA

Directions:

1. Using the Internet, library or any other available resource, research OSHA's role in prevention and elimination of work-related illnesses and injuries.
2. Using your research, create a two page report detailing your findings.
3. Reports should include the following guidelines:
 - Define the acronym "OSHA" and explain what OSHA does
 - Explain OSHA 1926 CFR Subpart C
 - Explain OSHA's General Duty Clause
 - List at least three employer responsibilities required by OSHA
 - List at least three worker responsibilities covered under OSHA
 - Describe or state where to find out more about OSHA
 - Include information about employer/employee rights and responsibilities
 - Any other information your instructor deems necessary
4. Remember to attach a citation sheet to your report listing all sources used.
